COMPANY PROFILE

ABOUT BRIZALL GROUNDING SYSTEMS

Brizall Grounding Systems has been recognised as a global market leader in earthing and lightning protection systems. The Company was established in 2009, and it is a high-tech enterprise integrating lightning protection and grounding products with independent research & development, production, trade, and service.

MANUFACTURING CAPABILITIES

We specialise in UL-listed 254-micron copper-bonded earthing rod, copper-bonded earthing pipe, copper-bonded busbar (strip), copper-bonded earthing electrodes, and copper earthing rod with strip (terminal) welded. We also manufacture ground enhancement material (GEM), earth inspection pit (Polymer & concrete) for a one-stop solution of lightning protection. We also offer Grounding & Earthing Accessories, Copper Lugs, Cable Glands, Bimetallic Lugs.

OUR CERTIFICATIONS

We are committed to delivering products that meet the highest standards of quality, safety, and compliance. Our operations are backed by internationally recognised certifications, including ISO 9001:2015 for quality management, UL certification for product safety, IEC compliance with global electrotechnical standards, BS EN 62561 certification for performance and reliability, and RoHS compliance ensuring environmentally responsible manufacturing. These certifications reflect our dedication to excellence, continuous improvement, regulatory compliance, and providing customers with reliable, safe, and sustainable solutions.
